BUREAU OF THE CENSUS

SUMMARY REPORT
FT 950-E

February 1965

FOR RELEASE
April 22, 1965

EXPORT TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the increase in U.S. exports of domestic and foreign merchandise, including Special Category commodities, and unadjusted for seasonal variation, from $1,247.4 million in January[1] to $1,598.1 million in February[1,2] reflected increases in exports to all areas. Changes in the dollar values of area totals from January to February were as follows: Canada, from $298.3 to $354.1 million, Latin American Republics, from $164.4 to $228.2 million, Western Europe, from $392.8 to $527.1 million, and "all other countries," from $391.2 to $430.7 million. Exports of Special Category commodities were valued at $79.7 million in February as compared to $69.7 million in January.

With Special Category commodities excluded, exports of domestic and foreign merchandise rose from $1,180.6 million in January to $1,518.4 million in February. Exports to Canada increased from $296.9 to $354.1 million; Latin American Republics, from $164.4 to $228.2 million; O.E.C.D. countries in Europe, from $344.8 to $488.3 million; E.E.C. (European Economic Community) countries, from $203.1 to $284.2 million; Japan, from $116.6 to $139.8 million; Soviet bloc countries in Europe, from $1.4 to $10.8 million; and "all other countries," from $290.6 to $291.0 million. During the period increases were reported in exports to all continents.

Exports to Europe increased from $352.2 million in January to $509.3 million in February, largely as a result of increases in exports to the following countries: United Kingdom, from $67.9 to $107.7 million; West Germany, from $69.6 to $89.2 million; Italy, from $33.1 to $59.7 million; the Netherlands, from $43.3 to $58.5 million; Sweden, from $12.9 to $21.2 million; Belgium and Luxembourg, from $24.8 to $32.3 million; France, from $42.3 to $49.5 million; Switzerland, from $12.9 to $18.1 million; and the Union of Soviet Socialist Republics, from $0.2 to $5.6 million. The increase in exports to North America from $423.4 to $496.5 million was chiefly due to increases in exports to Canada, from $296.9 to $354.1 million (as noted above), and Mexico, from $74.7 to $81.0 million. These increases were partially offset by a decrease in exports to Trinidad and Tobago, from $12.0 to $4.4 million. Increases in exports to Venezuela, from $21.7 to $34.3 million and Peru, from $8.0 to $18.9 million, were largely responsible for the increase in exports to South America, from $73.3 to $116.4 million. The rise in exports to Australia and Oceania from $24.2 to $63.3 million was primarily due to the increase in exports to Australia from $19.4 to $56.0 million. The higher level of exports to Africa, from $33.9 to $49.1 million, was largely the result of an increase in exports to the Republic of South Africa, from $14.6 to $23.7 million. Exports to Asia rose from $273.7 to $283.7 million as increases in exports to Japan, from $116.6 to $139.8 million; the Philippines, from $13.9 to $21.2 million; and Israel, from $5.7 to $12.2 million. These increases were partly offset by decreases in exports to India, from $41.9 to $28.3 million; Taiwan (Formosa), from $12.7 to $5.2 million; and the Republic of Korea, from $13.9 to $8.2 million.

[1] See the February 1965 issue of Report FT 900-E for seasonally adjusted figures on total exports, excluding Military Assistance Program--Grant-Aid shipments. Seasonally adjusted data are not available for total exports including Military Assistance Program--Grant-Aid shipments or by country of destination.

[2] The Bureau of the Census does not have adequate information to enable it to measure the influence on the statistics of the dock strike at east coast and gulf ports. The strike was originally scheduled for December 31, 1964, eventually began January 11, 1965, and ended on different dates at individual ports, but in general, continued through the middle of February.

EXPLANATION OF STATISTICS

COVERAGE: Export statistics include government as well as nongovernment shipments to foreign countries. The export statistics, therefore, include Department of Defense Military Assistance Program--Grant-Aid shipments (for which separate figures are shown in the footnotes of this report), Mutual Security Program economic assistance shipments, and shipments of agricultural commodities under P.L. 480 (The Trade Development and Assistance Act of 1954, as amended) and related laws. (The separate information which is available on exports under P.L. 480 and related laws may be obtained from the Economic Research Service and the Foreign Agricultural Service of the Department of Agriculture.) Shipments to United States armed forces and diplomatic missions abroad for their own use are excluded from export statistics. United States trade with Puerto Rico and United States possessions is not included in this report, but the export trade of Puerto Rico with foreign countries is included as part of the United States export trade. Merchandise shipped in transit through the United States between foreign countries, not entered as imports, is not included in export statistics.

COUNTRY DEFINITION: Although the country of destination is defined as the country of ultimate destination or the country where the goods are to be consumed, or further processed or manufactured, the statistics do not always reflect this definition, as the shipper may not know the ultimate destination of the shipment. In such cases, the shipments are credited to the last country, as known to the exporter at the time of shipment from the United States, to which the goods are to be shipped in their present form. It follows, therefore, that the statistics will tend to be overcounted for shipments to transshipment or merchanting countries and undercounted for other countries. As explained in the footnotes to the table, exports of Special Category commodities are not included in any of the published country totals, for reasons of security.

VALUATION: The valuation definition used in the export statistics is the value at the seaport, border point, or airport of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Transportation and other costs beyond the United States port of exportation are excluded. None of the values have been adjusted for changes in price level.

RELIABILITY: The statistics presented in this report are based partly on sample data and therefore are subject to sampling variation that may cause them to differ somewhat from the results which would have been obtained from processing all export documents. For the figures shown in this report, the sampling variability can be ignored since the probable variability due to sampling is either less than $50,000 (the largest variation from rounding of figures) or less than a trivial percentage of the individual totals shown.

In addition to the effects of sampling variation and the difficulties described above under COUNTRY DEFINITION, the data in this report are subject to errors from such sources as the carry-over of data from month to month, errors in reporting or processing, the estimation of shipments valued under $100, and the omission of parcel post shipments valued under $50. Although the effect of such errors on the rounded totals in this report is probably small, the possibility of inaccuracy should be taken into account, particularly in using figures of relatively small magnitude

Further information regarding coverage, valuation, compilation procedures and precision of export data is contained in the foreword of Reports No. FT 410 and FT 420. For complete statement, see foreword in Foreign Commerce and Navigation of the United States.

For sale by the Bureau of the Census, Washington, D.C. 20233. Price 10¢ per copy.
Annual subscription (FT 900, 930, 950, 970, 975, 985, and 986 combined) $5.00.

Republic of South Africa	23.7	14.6	38.3	30.2	26.2	56.3
Zambia, Southern Rhodesia and Malawi	0.9	0.9	1.8	1.8	1.2	3.0

- Represents zero. Z Indicates less than $50,000. [a-e]Countries included in each area are identified with the same literal footnote as the area. [1]For definitions of countries as used in this report, refer to current edition of Schedule C, Classification of Country Designations Used in Compiling the U.S. Foreign Trade Statistics. [2]Country detail is not reported in the export statistics for Special Category commodities for security reasons. For certain areas, export totals include Special Categories, as shown at the beginning of the table. Export figures for other areas and countries represent total exports less exports of Special Category commodities. However, as a result of changes in security restrictions effective January 1965, without a corresponding change in restrictions applying to earlier periods, country totals for 1965 include data for exports of some commodities which as of this time cannot be allocated by country in the 1964 data. Because of this, and also because of changes in the content of Special Category commodities resulting from the January 1965 revisions of Schedule B, the 1965 country totals and Special Category totals in this table are not completely comparable with those for earlier periods. Also, the 1964 Special Category totals shown here differ from the corresponding 1964 totals shown in the January 1965 issue of Report FT 900-E. The adjustments made in that report for greater comparability with 1965, have not been made in the present table because of the restrictions which still remain on the distribution by country of 1964 data for all commodities on the 1964 Special Category list. A list of the 1965 Special Category commodities will be presented in the January 1965 issue of Report FT 410. [3]The Bureau of the Census does not have adequate information to enable it to measure the effect on the statistics of the dock strike at east coast and gulf ports, originally scheduled for December 20, 1964, and which eventually began January 11, 1965 and ended on different dates at individual ports, but in general, continued through the middle of February. [4]Includes $84.4 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($21.5 million to Western Europe). [5]Includes $59.3 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($27.0 million to Western Europe). [6]Includes $143.7 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($48.5 million to Western Europe). [7]Includes $97.0 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($35.0 million to Western Europe). [8]Includes $92.5 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($49.6 million to Western Europe). [9]Includes $189.5 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($84.5 million to Western Europe). [10]As explained in the April 1958 issue of Foreign Trade Statistics Notes, this is an arbitrary category established with April 1958 statistics to cover certain shipments to unidentified countries in Western Europe. [11]Country designation established January 1965, includes areas formerly know as Tanganyika and Zanzibar. (The data shown for periods prior to January 1965 represent the combined export totals for these areas.)
